DIARY NOTES

25X1A

DD/S

29 March 1962

25X1A9a

1. I alerted [REDACTED] of the possibility that we might not be able to pay the movement expenses from California to Washington of [REDACTED] who has been hired as the new Assistant Director for Scientific Intelligence. I urged him to get this straightened out with the General Counsel without delay.

3. [REDACTED] was in with a draft response to Mr. [REDACTED] questions concerning our increase in PP activities for Fiscal Year 1963. To me, his draft was totally unsatisfactory and, after consulting with Dick Helms, I directed that he get in touch with [REDACTED] and give him a full and specific explanation of these increases, label his paper Top Secret, and expedite its completion.

4. I talked with Dick Helms about [REDACTED] request for an advance of \$500,000 for Project [REDACTED] prior to approval of an Administrative Plan. Dick agreed that this request was probably unnecessary and, with his approval, I telephoned [REDACTED] and advised him that I did not wish to sign off on it. Since the project was approved on 21 February and the Board of Directors was set up in early March, I told him that I failed to understand why we could not have an Administrative Plan prior to this date.

5. I talked with Mr. Dulles, General Carter and Kirk about a meeting to pursue with Mr. Dulles the Director's suggestion that we form an Alumni Association. This meeting has been arranged to follow a luncheon which the Director is giving for Bob Amory on Monday, 2 April.

25X1A9a

6. Shef Edwards advised me that the Director, through [REDACTED], has requested from the Office of Security a monthly report giving certain statistics concerning security clearances -- number of people approved, turned down, for what reasons, etc. I asked Shef to submit this report to the Director through me.

25X1A9a

7. [REDACTED] was in to clear with me a proposed memorandum to Chief, TSD for the Director's signature concerning a request from certain TSD employees to form a "representational organization." I approved this draft except to disagree with Dave's proposal to forward to Chief, TSD, the detailed comments of the General Counsel, Director of Security, and Director of Personnel.

25X1A6a

8. Matt Baird is fearful that new demands which may be levied on [REDACTED] may make it necessary for us to continue to use some of the temporary buildings there. If this should be the case, it would be wise to start preventative maintenance now. I told him not to do anything at the moment, but to discuss this again with me about 1 May. I am loathe to spend any more maintenance money on the temporary buildings at [REDACTED] unless the requirement for their use is pretty solid.

25X1A6a

25X1A6a

9. Larry Houston reported that [REDACTED] has come in with a firm proposal concerning bonuses for Chinese and Americans. In principle, he feels strongly that Chinese and Americans should share and share alike. His formula suggests a sliding scale depending on the number of years service with the company. Larry thinks that the cost on this formula will not exceed the cost approved.

25X1A5a1

10. Larry also reported that the Retirement Plan will be filed tomorrow so that we will get a tax benefit.

25X1A9a

25X1A9a

11. [REDACTED] reported that Colonel [REDACTED] Deputy Chief, NPIC, has asked that his son be accepted for summer employment. This raises a policy question with regard to summer employment for children of military personnel working in CIA, but not detailed to us. We have to draw the line somewhere and, since the program is already oversubscribed, I think that this is it. I told Harry not to accept Colonel [REDACTED] son.

25X1A9a

12. General Frye of the First National Bank of Falls Church called to reiterate their interest in banking facilities at the new building. I told him that there has been no change since I talked with him in the past and that I anticipated none in the future.
